Software

Windows 10
Professional

Windows 10 in S mode

- Windows 10 in S mode is a version of Windows 10 that's streamlined for security and performance. To increase security, it only allows apps from the Microsoft Store and requires Microsoft Edge for safe browsing. Switching out of S mode is one-way. If you make the switch, you won't be able to go back to Windows 10 in S mode.

Antivirus

- The school will provide Trend Micro Internet Security for the device (free of charge).

Microsoft Office Suite

*Our students are able to take advantage of access to Microsoft Office Suite without additional charge due to an agreement between all SEK International Schools and Microsoft.

- Capture your ideas however you work best—using a keyboard, pen or touchscreen.
- Create and edit Word, OneNote, PowerPoint, and Excel documents from a browser.
- OneDrive gives each user 1 TB of personal cloud storage that can be accessed from anywhere, on any device.
